

A Heart Healthy Lifestyle

Heart disease is a leading cause of death for both men and women.

Leading causes:

- ▶ Inactivity
- ▶ Obesity
- ▶ High Blood Pressure
- ▶ Smoking
- ▶ High Cholesterol
- ▶ Diabetes

What can you do to improve your heart health?

Eat Healthy!

- ▶ Buy lean, skinless meats and poultry
- ▶ Use fat-free and low-fat dairy products
- ▶ Limit your alcohol intake
- ▶ Prepare foods without added salt
- ▶ Avoid foods high in sugar or dietary cholesterol
- ▶ Eat whole grain breads and pasta

Get Fit!

- ▶ Find an active way to relax: It's tempting to want to sit and relax. Instead, go for a bike ride or join a recreational sports team.
- ▶ Go for a walk: Find a local area where you can go and walk for a few miles. Spend time outdoors, and enjoy what nature has to offer while you get fit!
- ▶ Make it a family event: Help your children build healthy habits. Take a ball or Frisbee and visit a nearby park. Build memories while improving your heart!

When you create habits for a Healthy Heart you also help with:

- ▶ Weight loss and preventing weight gain
- ▶ Endurance and vitality
- ▶ Improving blood sugar control in diabetes
- ▶ Relieving anxiety, depression and stress
